About Parallax

We are a 501(c)(3) nonprofit delivering research, technology, and human and business solutions via The Science of Intelligent Teaming™ to our government, industry, and academic clients in Ohio and the Nation.

We define the The Science of Intelligent Teaming™ as basic and applied research of highly diverse artificial intelligence, machine, and human teams and how they interact and perform with one another.

Together with academia, we accelerate innovation that leads to new breakthroughs. Together with government, we tackle critical global challenges and deliver new solutions. Together with industry, we develop groundbreaking ideas and speed them to market. This is where everything comes together. This is why Parallax is here.

LIFT Off: Ohio Welcomes Flying Car HEXA

Ohio has welcomed its first "flying car." HEXA by LIFT Aircraft is an all-electric vertical takeoff and landing (eVTOL) single-passenger wingless multicopter ultralight. Bringing this flying car to Ohio for continued research and testing was made possible through public and private partnerships, including the U.S. Air Force's AFWERX program, Governor Mike DeWine, and JobsOhio.
